

# THE \$HORMINY WHITEPAPER

# CREAT TO SMELL YOU

Hey there, sweetie pies! Welcome to **\$HORMNY**, the meme coin that embodies our wild boldness and unpredictable inner lust. With a flirty and playful flair, we are now delighted to usher her into the crypto world to stir, shake, and enjoy investment opportunities.

**\$HORMNY** was born from the realization of the hormonal rollercoaster we all xperience, spiced up with a passion for tech and investment opportunities.

Our fabulous mascot, the sassy diva, was conceived to resonate with our cheekiest selves and shake up the meme coin market.

## LAUNCH

We're doing a fair launch on the Moonshot platform from Dexscreener. No pre-sale shenanigans, no insider nonsense—just 1 billion coins ready to fly.

- Ownership renounced, immutable, and oh-so-secure.
- Fully audited smart contracts, baby!
- Buy and sell whenever you want. Unleash the beast

## SMART CONTRACT

Our \$HORMNY smart contract is struttin' its stuff on the Solana blockchain. High-speed transactions and low fees? Yes, please! All for that top-notch user experience.

## SUPPLY

We've got a limited supply of 1 billion (yeah, that's 1,000,000,000) \$HORMNY coins. No team allocation, no pre-sale—just pure, unadulterated coin goodness.

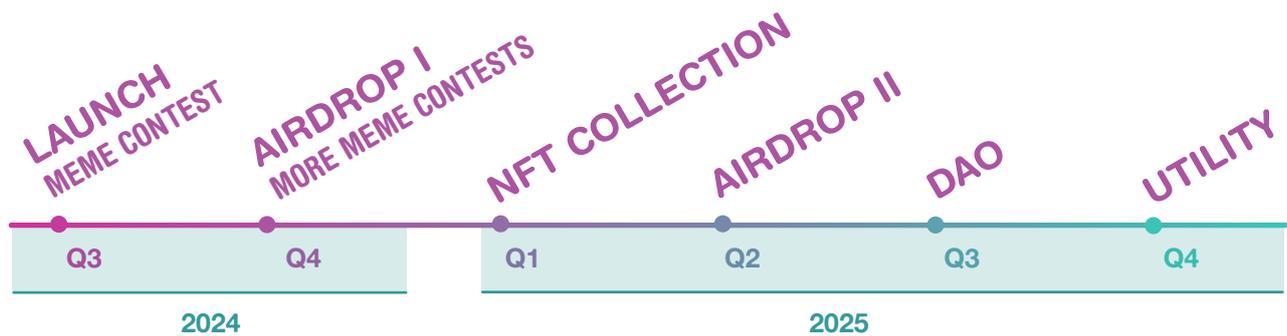

## WEN MOON

Oh, sugar, once our market cap hits 500 SOL (that's about \$89.7k), we're movin' all liquidity from Moonshot to Raydium. Get ready for a deflationary boost with 150M-200M tokens burned. And all liquidity will be locked up tight by burning the LP token.

# TINGLES PLAN

Join us on our tingles plan as we navigate the exciting world of \$HORMNY!

# RISKS

Let's get real for a sec, sweeties. \$HORMNY is a meme coin with no intrinsic value. Don't throw in money you're not ready to lose. Prices might soar, or they might nosedive. We're not responsible for the price of the token. So play smart, and keep it sassy!

There you have it, plums! Dive in with your inner playful self and let's make some magic happen!
